Comment: Artillery units were the first component units of the Sth Gds Mecz Div (Sadre) to leave the military post in carly June 1949. This report indicates that other units of this division were still leaving in late July 1949. It can be assumed that the entrained tank units also went to the TEMPLIN training area, where the bulk of the Sth Gds Mecz Div (Gadre) has been located since early July 1949.
